CPAP Practice Examinations 2023

All CPAP practice examinations are written by experienced VCE teachers who have had years of experience as examination assessors. Exams are prepared 'from scratch' every year to ensure that teachers have access to practice assessment material that is both contemporary and challenging. Our writers use their knowledge of past examinations, as well as any recent developments, to produce the highest quality examination papers complete with solutions/answers and advice. The Unit 3/4 examinations are prepared with the express purpose of providing a reliable indication of the external VCAA examinations in each subject. Two distinct Unit 3/4 examinations are published for each subject and our writers are instructed to focus on different areas of the Study Design in each examination. This helps to ensure that the entire course for each subject is more completely covered by both 3/4 CPAP examinations. Units 1 and 3 exams are distributed in late April, Unit 2 exams in late August and Unit 3/4 examination papers are distributed in early August. The examination papers are priced at \$66 (Units 1, 2 and 3) and \$72 (Units 3/4). These prices include permission to photocopy the material per class (of up to 26 students).

All new in 2023

CPAP Assessment Tasks 2023

All new tasks in 2023 including Unit 1 & 2 assessment tasks to complement Unit 3&4 tasks

The CPAP Assessment Tasks (CATs) can be used as a set for each study, or purchased individually to supplement existing tasks used at your school.*

The CATs are priced from \$30 for each outcome, come complete with suggested responses, and contain a license to photocopy the tasks per class (of up to 26 students). The CATs have been written exclusively by VCE Examination Assessors with the purpose of providing high quality assessment material for teachers of Commerce studies in the Victorian Curriculum. Our writers have prepared each task via a structured question format, with a focus on the key knowledge and skills for each area of study. In particular, CPAP writers have used their recent examination assessing experience to prepare tasks that reflect the standard expected in VCE examinations, focusing on the common errors made by students, whilst simultaneously addressing the core requirements of each outcome.

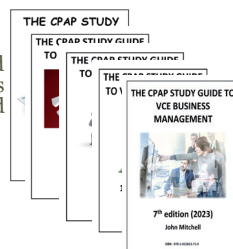

CATs are finalised in January 2023 for pdf distribution from early February (Units 1 & 3) and late May (Units 2 & 4) to ensure that the latest developments are incorporated into their design. Overall, CATs will ease teacher workload and provide teachers with security in the knowledge that assessment tasks are prepared by experts in the relevant field.
